Craig --

RE: your P.S. You copied me on the e-mail you sent Kara-Beth on 27 Jul. I couldn't find a copy where you sent her my Chapter 1, which I sent to you 4 Aug.

I scanned your proposed changes to my draft.

For Chapter 2, Item 10, Technical Docs, I had envisioned a list of the outputs, including interim docs (like the ones the Stakeholder Tech group has been given). I'm thinking of things like the sampling docs.

I didn't understand why you proposed to delete Appendix 6, Historic CI Activities. This is a common item that lets anyone new to the site know what we've already done to involve the public in our work. It also serves the valuable service of deflecting criticism that EPA has not attempted to keep the public informed and able to participate. It would include things like the Interagency WG, our public meetings, and our mailings.

You didn't make any notes for Appendix 13, site maps. I was hoping that you and Nicole would indicate which maps (or portions) would be best.

RE: TASC

As I told Nicole, we'll get the proposed TASC project description to everyone before the briefing with Keith. I think both of the items you suggest will be a part of the meeting.

Have a good holiday weekend.

**Subject:** Goals of the Sept 10th Briefing for Keith on TASC at SSFL

---

David -

I wanted to follow-up with you about your recent meeting invite for briefing Keith on TASC at SSFL. I am glad to see that you are

pressing forward with this so we can take this issue to resolution.

However, based on that meeting that Elizabeth, Claire, Clancy, Luis, Nicole, you and I attended several weeks ago, both Nicole and I understood that this briefing for Keith would be two-fold: (a) *Should* we proceed with TASC at SSFL (pros/cons/recommendation), and (b) If YES, then *how* do we roll-out TASC at SSFL (or if NO, then how do we communicate this to stakeholders)?

Your email implies that the answer to the first question is already "Yes". I recommend that your presentation address both of these questions sequentially. It would be great if Nicole and I can review your presentation material in advance of the Sept 10 briefing.

Thanks,  
Craig

p.s. Did I send you my comments on the CIP text that you sent out weeks ago? I know that I wrote up comments but forget if I actually sent you my comments. If not, I can do so later today. Thanks.
